## Letter of Recommendation

Dr. Denk, respectively the Sanet GmbH was engaged by the RhönSprudel Group in the years 2010/2011. The engagement included the following tasks:

1. Identification of possible products from the total portfolio of the RhönSprudel group
2. Identification of legal regulations concerning the export to Thailand
3. Identify possible business partners and create a qualified list
4. Support the selection of possible partners in Germany as well as in Thailand
5. Presentation and hand-over of samples
6. Price- and competition surveillance in the Thai market
7. Market- and store checks
8. Attendance during final negotiations with local partners in Thailand
9. Discussing the total project in Thailand and in Germany

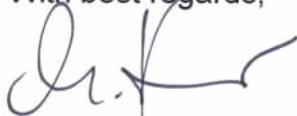

We met Dr. Denk and the company Sanet GmbH as most competent partners for the Far-East market, especially for Thailand. Dr. Denk and Sanet GmbH accomplished all points in an extremely accurate, effective and most of all in an economical manner. During the duration of the project we were able to communicate with all responsible partners directly and without any problems.

The result presented by Dr. Denk and Sanet GmbH pleased us in all respects. Meanwhile we have good and prospective points of contact in Thailand and we are very satisfied with the performance of Dr. Denk and Sanet GmbH.

We herewith recommend Dr. Denk and Sanet GmbH without hesitation to all companies who want to start the step into the Far East market for the first time, but also to all companies who already have existing contacts.

With best regards,

Dr. Manfred Ziegler  
CEO
